THE REDCLIFF REVIEW THURSDAY OCT. 12th. 1933.

Number 60

UPWARD TREND NOW UNDER WAY

Iron. E. N. Rhodes and Prominent Bankers Endorse Bennett's Figures

The Prime Minister's confident and encouraging statement in introducing the new Dominion Loan has created a very positive and favorable reaction throughout the country. Its clear-cut expression of his conviction that recovery is under way, together with evidence he had given stimulated a growing sense of optimism in business circles which is reflected in the subscriptions to the New Loan. There has also been widespread endorsement of his view that, although the road may be long and progress slow, the events of the past six months appear to demonstrate with increasing clarity that the downward trend has come to a definite stop and that the upward trend is in progress.

Some examples of the endorsement from prominent Canadians follow:
Honourable E. N. Rhodes, Minister of Finance: "As Canadians we must all share in the sense of encouragement that the Prime Minister has inspired by his statement regarding the improvement in business conditions throughout this country. It has called our attention to indications of recovery that have become increasingly definite with each successive month and which have been so sustained and consistent that one can no longer doubt their significance."

SIGN OF CONFIDENCE
Sir Thomas White, Vice-President Canadian Bank of Commerce: "I fully concur with the statement of the Prime Minister as to the upturn which has taken place progressively in Canadian business during the past few months. In almost every branch of the country's economic life there is manifest a slow but steady advance from the low point of last April. Despite adverse crop conditions I found, during my recent tour of the West, not only a spirit of confidence but quite noticeable signs of improvement."

Professor Gilbert Jackson, Director of the Courses in Commerce and Finance of the University of Toronto and Economist of the Bank of Nova Scotia: "The very temperate statement made by the Prime Minister with reference to recent improvements in Canada is fully validated by the fact that not only have the physical volume of business and production increased since February by 34% but an even more encouraging point is that the prices of basic commodities have risen appreciably in the same ratio. This has been followed by marked increase in manufacturing activity. Even in construction there are signs of improvement. Most encouraging of all is the increased confidence of the people in the situation evidenced by their increased readiness to spend. The rate of turnover of bank deposits has increased

St. Mary's Thanksgiving Supper a Success

Was Well Attended and Meal Much Enjoyed

The ladies of St. Mary's Church held their Thanksgiving Supper on Monday last in the I. O. O. F. hall. A good crowd of patrons were in attendance and a most delicious supper was served.

A good attendance was on hand for the 21st drive 'also. The winners were: Mrs. Cahoon 1st and Mrs. Newnam 2nd for the ladies and Mrs. Tamer 1st and Mr. H. Leppard 2nd for the gentlemen.

Keen disappointment was felt with the orchestra through some misunderstanding failed to put in an appearance. However several who were present rendered voluntary services and a very enjoyable time was spent.

Mrs. R. S. Hodge and Mrs. Woodcock returned Sunday night from a holiday trip to Vancouver.

A number from Redcliff attended the Masonic district Meeting held in Medicine Hat last Tuesday afternoon and evening.

Dr. and Mrs. Ward were weekend visitors to Edmonton where they spent the holidays with Mrs. Ward's parents Dr. and Mrs. Blythe.

Mr. and Mrs. A. R. Ballentyne and George are leaving on Saturday for Portland where they will attend the wedding of Mrs. Ballentyne's brother Mr. Paige Newton.

The afternoon tea and sale of harvest home donations, held in Gordon Memorial schoolroom attracted a good crowd on Tuesday afternoon. Everything found ready sale and a nice sum was realized by the ladies.

very rapidly since the spring improvement is definite.

Mr. W. Wilson, Vice President and General Manager of the Royal Bank of Canada: "The Prime Minister has quoted statistics to show that there are definite signs of trade recovery in Canada. In my opinion, these statistics do not fully reflect the improvement which has occurred. While there is still a number of clouds on the business horizon, notably the low price of wheat and the partial crop failure business throughout Canada has shown a definite and, in number of instances, a marked improvement and my confidence in a continued upward trend is strengthened by the background of what seems to be a definite world-wide recovery. It would be foolish to minimize the seriousness and extent of the problems still facing us but the evidence of improvement will enable us to tackle these with greater heart and spirit. We are now offered an opportunity to show our confidence in ourselves and Canada in supporting the government in its essential financial operations. Dominion of Canada Bonds are the premier securities available to investors.

Redcliff Couple At Hymian's Altar

Fairhurst — Stots

A very pretty wedding was solemnized in St. Ambrose church on Monday afternoon when Miss Ida Stots, daughter of Mr. and Mrs. J. Stots of Medicine Hat, was united in marriage to Mr. Robt. Fairhurst eldest son of Mr. and Mrs. T. Fairhurst of Redcliff.

Miss Margaret Sellhorn played the wedding march as the bridal party entered the church and proceeded to the altar. The bride who was given away by her father looked charming in a gown of egg-shell tulle and carried a bouquet of pink roses.

She was attended by Miss Frances Buchholz in pink tulle and carried a bouquet of white carnations. Mr. Ted Fairhurst supported the groom.

During the signing of the register Miss Irene Buchholz and Miss Annie Shaw rendered the duet, "I Love You Truly." Rev. P. Malcolm Stewart officiated.

After the ceremony a reception was held at the home of the bride's aunt, Mrs. Komyssek of Medicine Hat. The young couple will live at Harvest Vale.

The baby clinic will be held in Gordon Memorial school room to usual next Wednesday.

Mr. and Mrs. Tom Dutton and child, of Clarendon, spent the Thanksgiving holiday in town with the former's parents Mr. and Mrs. T. Dutton.

Among those who spent Thanksgiving with their parents here were the Misses Francis and Irene Buchholz, Maud Wyatt and Jean and Naomi P. W.

Redcliff Reminiscences

Taken from our file of Oct. 16th. 1914.

Sheepskin gloves made in Redcliff are selling for 75c a pair.

Mr. Hume Pingle is moving his drug business to Medicine Hat.

The Knitting mill will be in operation by the early spring. One hundred teams and 150 men are now working on the C. N. R. grade just west of town about 5 miles.

A. J. Nicholson's half acre garden has yielded him 2000 worth of vegetables. He got 125 bushels of potatoes alone.

The coal mine is running at full capacity. Today the Erick and Coal Co. shipped out 9 cars of coal and 8 cars of bribe. The mine has been averaging 4 cars of coal a day.

Manager Pratt of the Redcliff Rosary has 25,000 lettuce and radish plants set out, and will be ready to start shipment of vegetables in December.

Five Redcliff boys have enlisted in the Second Continent. These are W. B. Swanson, Robt. Haney, J. C. Hill, J. A. Coe and J. Beamish.

\$9.25 Contributed For Navy League

Representative Wan in Town Last Week End

Rallying to support the Navy League of Canada in its work of assisting widows and orphans of the Merchant Marine service, Redcliff citizens subscribed \$9.25 to this cause in a recent campaign here, conducted by Fred Cooke, organizer of the Alberta division. The \$250 Magazine, published quarterly, may be obtained by the payment of \$1.00 per annum in addition to your donation to the fund.

The regular fee for the magazine is \$2.00 per annum. Any further contributions may be sent to Fred Cooke, 1107 15th Ave. Calgary.

Alberta Butter Being Exported to Britain

Will Relieve The Large Surplus Now on Hand

Some 672,000 pounds of Alberta butter are being exported to British markets this fall, comprising one of the largest export movements ever undertaken from this province.

Manufacturers in the province have moved to export the butter to relieve the large surplus existing in the country in an effort to save the price situation this winter although the loss suffered by the manufacturers will be around 4 cents a pound.

HEAVY SHIPMENT OF CATTLE TO BRITAIN

More than 6,000 head of beef cattle have already been exported from Alberta this year to Old Country markets, one heavy shipment of 825 head being made during the last week in August.

It is now around to subscription time again. How is yours?

Oxford Group Pay Visit To Redcliff

Our Witnesses at Evening Service at Gordon Memorial

A number of Calgary members of the Oxford Group visited Medicine Hat and Redcliff last Saturday Sunday and Monday and held a series of meetings to witness for the movement. Sunday evening four members of the party were at Gordon Memorial church here and each delivered very interesting and stirring messages as to the changes made in their lives since joining the group.

The simplicity of the messages, dealing, as most of them did with the affairs of everyday home and business life, made them the more impressive and real.

We understand a number here have signified their willingness to support the movement and a group will be formed in town.

Here and There

Four moose and two bear were taken by a party of St. Peter's, N.J. hunters in the Upper district recently. The moose ranged from 5 to 7 feet in length. This early success points to a good season in the district north of Montreal.

October 10-11 are the dates set for the International Cover Dog trials to be held at Petrolville, New Brunswick. Many letters have been received from dog owners, both in the United States and Canada, inquiring as to the trials and a large entry list is expected.

First shipment of sapearagus from Port Nelson, Ontario, to England, aboard the Duchess of Richmond recently, has been acknowledged by letters from the Old Country stating that the "grasses" arrived in excellent condition and of exceptional quality and flavor.

Among the recent visitors to Grand Pré Memorial Park, in the Francophone country of Nova Scotia was Mrs. A. J. Lafrance, of Acadia, N.B., whose husband is a lineal descendant of Francis Armand, an Acadian officer banished at the time of the expulsion of the Acadians.

Tom Wilson, trail-blazer, trapper, hunter, Indian guide and veteran explorer, world-known for his discovery of the Louisa and Emerald Lake in the Rockies, and last of the Canadian Pacific Railway's pioneer builders, passed over the Great Divide recently. He was in his 75th year.

A generous supply of British capital awaits investment in Canada. Sir Herbert Samuel, leader of the Liberal parliamentary party in the British House of Commons, told a large luncheon meeting of the Canadian Club at the Royal York Hotel, Toronto, recently.

The world's largest map of Canada, 10 feet high and 100 feet long, painted by Montreal artists on linen, hangs in the Hall of Nations, Chicago World Fair, as a joint display of the Dominion Government, the Canadian Pacific and the Canadian National Railways. Guided by three red-coated men of the Royal Canadian Mounted Police, one of the most popular exhibits of the great fair.

Sir William Shenton, Carlton Club, Pitt Street, London, who was a delegate to the meeting of the Institute of Pacific Relations held at the Hotel Statler in New York, recently concluded a salmon fishing trip to the upper waters of the St. John River near Perth, Ontario. He had in England and Norway, Sir William stated that the St. John salmon could not be beaten for fighting qualities and average size.

Read the ads over carefully. You will make your shopping easy.

Local Oxford Group At Gordon Memorial Next Sunday Evening

The Review has been asked to announce that some members of the local Oxford Group will witness at the close of the service in Gordon Memorial church on Sunday evening next.

Mr. and Mrs. J. G. Bugevon spent Thanksgiving at Drumheller visiting friends.

Miss Anna Todd of Winnipeg is at present visiting her parents Mr. and Mrs. T. Todd.

Mr. Sid Woods of Piapot spent the Thanksgiving week end here with his parents, Mayor and Mrs. G. H. Woods.

Mr. and Mrs. Harold Conn and Miss Shirley Brydon of Calgary spent last week-end here with Mrs. Conn's parents Mr. and Mrs. Fred Conn. Mr. Conn will remain for a week or more.

As last Monday was a holiday there was no meeting of the town Council on that evening. The meeting was called for Wednesday evening but as there were not enough members present to form a quorum, no business was transacted.

The St. W. A. of St. Ambrose church are serving a Halloween supper in the Parish Hall on Monday evening, October 30th from 5:30 to 7 o'clock. Admission: Adults 35 cents and children under 14 years 20 cents. The ladies are also holding a Novelties Whist drive on the same evening beginning at 8 o'clock.

W. C. Smith M. L. A. for Empire passed through town last weekend on his way home after a trip through his constituency. The object of his trip was to inform the farmers in the south area of the plans of the local government to provide them with potatoes and other vegetables at very reasonable prices with the freight paid.

WHEAT PRICES

Winnipeg—1 Nor, cash 60 1/4; October, 60; on 60 1/4; December, 59 1/4; May, 44 1/2; Vancouver; 1 N. cash 56; December, 56 1/4; May, 44 1/2.

"The world's greatest water-power"—Woman's tears. You can never tell about a woman—You shouldn't anyway.

Why do they put so many holes in Swiss cheese when it's Limburger that needs the ventilation?

He says "The bird is on the wire." The poet's quite absurd. I know he must be coo-coo. For the wing is on the bird.

Equality

Men Make The State

Picking up a copy of the Moose Jaw Times the other day, the writer's attention was drawn to an article entitled "Men Make Cities" which opened by quoting the following inspirational lines of an unknown poet taken from the September issue of The Rotarian:

Cities are what men make them,
What men demand they shall be,
Slothful, sloven, and sleeping,
Progressive, beautiful, free,
If the hearts of the builders are noble,
In one with the day and the moon,
They will build into grandeur and greatness,
For so it was decreed.

These lines, it is stated, were inspired by the achievement of Atchison, Kansas, as told by Ed. W. Howe, editor of the Atchison Daily Globe. Atchison is one of the smaller cities, but in twelve years it has evolved from a bankrupt, tax-broke city—"slovenly, sloven and sleeping"—into one that is "progressive, beautiful, free," with its bonded debt cut 70 per cent. and even while this fine record was being made its tax rate was reduced by 35 per cent.

"How was it done?" In 1920 a group of citizens, noting the seriousness of the situation, started a movement to save the city, a new idea took hold of the administration, expenses were cut, and plans formulated to enable the taxpayers to handle the load and reduce the bonded debt and the overhead, and the creditable record was not interrupted through three years of the hardest times ever known, largely because lost courage and confidence was restored.

The Rotarian magazine tells the story in an editorial calling to Rotarians in every city to be up and doing for the welfare of their home town—to study its problems and to act. The Moose Jaw Times applies it directly to its own city and declares the challenge comes at this time not only to Rotarians but to every member of every service club of Moose Jaw. The writer of this column in passing the story along would make bold to list further catalogues of the problems from city or town to the citizenship of every community, large or small, because it is just as true that men—and women—make rural communities and little villages as it is that they make cities. It is the men and women of our rural communities, hamlets and villages are confronted with problems, which, considering their population and resources, are just as heavy and serious as those of the larger cities—perhaps even more so.

Furthermore, because of the very nature and extent of the world-wide depression which has developed, all communities, large and small, find themselves much in the same position. One cannot in their emergency turn to another because all are adversely affected, and while the willingness to assist may be there the ability to do so is lacking. So communities are thrown back on their resources to a greater extent than formerly.

Again, this has resulted in much purely voluntary work by individuals and organizations being restricted, leading to both individuals and communities turning to and relying upon the State to take over and assume their problems. The net result is a weakening of the morale of the individual, a loss of courage and confidence, the development of habits of subordination, and a deterioration of initiative and enterprise. Instead of men adhering to the truth that they make cities and nations, thousands are adopting the false theory that cities and nations make men, and that, instead of it being the duty and responsibility of men to order their lives and make their communities, it is the duty and responsibility of the State to order the lives and control the actions and destinies of the individual, thus reversing the order of the citizens controlling and directing the State.

Observant men and women are more and more coming to the view that the time has arrived to call a halt to this increasing reliance upon the State, and to renewed belief in the truth that the citizens of Atchison, Kansas, they must save themselves and their city by action on their own part; that instead of allowing their difficulties and problems to swamp and overcome them, they must overcome their problems and surmount their difficulties. It can be done. It has been done time without number by individuals and communities in the past.

Indeed, it is not done both the individual and the community, large or small, faces ultimate disaster. The individual will find himself submerged and his individuality largely gone, while the community will end up in complete bankruptcy and the loss of its local freedom and autonomy.

On the other hand, if the men and women of a community, be it a small village or a large city, better themselves and study their problems, and proceed to grapple with them on their own, they will be surprised how much they can accomplish. It will mean the abandonment of existing policies of drifting with the adverse tide. It will mean the logging off of this expenditure and that it will mean the application of the most rigid economy in all public administration; it will involve a more active participation by the individual citizen in effecting community savings; it will involve community sacrifices for a time just as thousands of individuals have had to make individual sacrifices, but it will mean ultimate success both for the community and the individual who constitute and make the community.

In a word, it means a return to the proper and sound conception—that men make cities, not cities make men. And in using the term cities the application is to all organized communities whether rural or urban, large or small.

Dairy For Prices Albert

Believing Prince Albert is headed for better times, F. R. Gladwin, who has been in the city for some time, has announced his plans to establish a dairy there for the retail distribution of pasteurized milk and cream. He has acquired 1300 acres near the city and built a barn to house 40 Holstein cattle and intends to bring from Kerrobert, where he now operates a dairy.

Both Tubs From England

Most of the imported baths and both tubs which are used in the Canadian market are made in England. During the past 12 months the value of these was \$100,000 compared with \$24,000 from the United States, 20 years ago. It is reported, however, that the importation of the latter was less than a year ago, but that of the previous 12 months.

Opponents are becoming so numerous in New Zealand that they are a menace.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint, etc., are the result, immediate attention should be given and the danger should be taken before serious.

To check these untoward discharges there is a remedy in Dr. F. W. Foster's Elix of Wild Strawberry, a remedy that has been on the market for the past 28 years. It is rapid, reliable and effective in its action. A few doses are usually all that are required to give relief.

Get it at your drug or general store or only by The T. M. Brown Co., Limited, Toronto, Ont.

British Railway Regulation

No-Smoking Order in Compartments To Be Enforced

In future all passengers on trains in the London, Midland and Scottish Railway will bear a distinctive label, "smoking" or "non-smoking." About 16,000 vehicles, with a seating capacity of more than 1,000,000 will have to be dealt with. Probably a year will elapse before the change-over is complete.

"We have had many complaints," said an official "about people smoking in non-smoking compartments. They take the view that as smoking is not definitely forbidden they may smoke if they wish to do so. We think the new labels are affixed on one will be allowed to smoke in a non-smoking compartment, even if other passengers may have no objection. Smoking is allowed in 75 per cent. of the compartments. It is not proposed to alter that proportion."

Other railway lines in the United Kingdom have carried labels in various ways, meant to indicate they are either for smokers or non-smokers.

CAST OFF UGLY FAT

Woman Loses 28 lbs. in 3 Months

"Three months ago," a woman writes, "I was pestered by my friends, Kruschen Salts to reduce my weight. I was 222 lbs. I had tried other diets and all failed to do any good. Now I know that Kruschen Salts are different. I have now lost 28 lbs. in 3 months. I feel five years younger. I really don't know the difference between what I have now lost 28 lbs. to date."

(Mrs. R. B. H.) "If you are overweight take one-half teaspoonful of Kruschen Salts in water or alcohol three times a day, not every morning. There will be no loss of sleep or anything else. It is a very steady decrease of fat that is lost which is as healthy as it is unobtrusive. A Kruschen is a blend of six mineral salts found in the human body. Kruschen Salts have been used by generations of overcast people to reduce weight."

Rising Tide Of Fascism

Warning Is Sound By Secretary Of Workers' League

Warning against the "rising tide of Fascism," as exemplified by the Blue Shirts of Canada, was sounded by J. C. Wilson, of Winnipeg, National Secretary of the Workers' League, at an open meeting of returned soldiers at Windsor, Ont.

"I understand the slogan of the Blue Shirts is 'Join us and get a job,' but that does not amount to a hill of beans," Wilson said. "In Winnipeg we formed the Old Comrades League, a job not filled by six members of the Canadian Legion."

"There is no job for them except as storm troops and a kind of regiment. That is their role, the same as the Fascists in Vancouver, strong-arm squad of Winnipeg, and Riel helmets of the Canadian Legion."

"The time has come when you, as your economic needs, as the only effective way to combat the rising tide of Fascism and possible war in six months."

Pains After Eating?

Try This!

Pains after eating are generally due to an excess of acid in the stomach that forms gas and causes belching, heart burn, bloating, sour stomach and indigestion. Bismuth Compound tablets after meals will give quick relief and passing relief you will be surprised. Any druggist will tell you ordinary Bismuth Compound is fine for sour acid stomach conditions. It should be in every home. It works.

Tomb Of Viking Chieftain

Discover Grave Of Warrior Buried 1,000 Years Ago

The tomb of a Viking chieftain, buried more than 1,000 years ago, was recently found at Langtunga in central Sweden. The find clearly shows the warrior was of high rank and furnished an interesting example of the burying customs of his day.

He had been interred with full armor and with a fine sword, evidently made and used in the south of England.

The sword hilt was decorated with silver ornaments, on one of which some galleys were being engaged.

Claims Patent "Fino" That his "plano" is faster than any other passenger-carrying type is the claim of the inventor of a new machine in Italy, having the body in a cylindrical enclosure, through which currents of air pass to supply the propelling power.

Scotland's potato crop this year was large but the drought gave work to hundreds of unemployed.

Powerful Flashlight FREE for POKER HANDS!

Unjustified Pessimism Is Chief Trouble Of Wheat Market, In Opinion Of Western Economist

Unjustified pessimism is the chief immediate trouble of the wheat market, according to Dr. W. W. Swanson, head of the Department of Economics in the University of Saskatchewan, who was in Montreal.

The importing countries of Europe have not yet reached their pre-war acreage in wheat, Dr. Swanson claimed, and have considerably reduced their growing of rye. The lessening of imports in Europe was due to no increase in acreage, but to extremely high yields this year last year. This, he suggested, could not be taken as a permanent factor.

Dr. Swanson drew attention to the statement of E. W. Snow, American wheat statistician, that current United States government estimates of wheat stocks in that country were about 150,000,000 bushels too high and that there was actually no surplus wheat there in excess of domestic requirements and a small carry over for safety.

As to the "blue eagle" campaign in the United States, Dr. Swanson declined comment other than to say he had never seen any case where the people had avoided the penalty of a past extravagance by refusing to admit it existed.

He had been a witness before the royal commission on banking and currency at Saskatoon and consequently declined to comment on the commission beyond the expression of admiration for the manner in which Canadian banks had met the world economic crisis and his belief that the personnel of the royal commission was a complete guarantee its report would be constructive.

Problems Of Dayrmen

Want Eastern Canada To Export Fair Amount Of Butter

Working through the National Dairy Council, the three provinces have made efforts to induce manufacturers in eastern Canada to export a fair quota of butter. They first started right after the Canadian butter surplus of 9,000,000 pounds was announced August 1. To this date the western provinces have received no indication that any butter would be shipped to the old country to the east, according to P. E. Reed, Saskatchewan Dairy Commissioner and Secretary of the Western Dairy Association.

Mr. Reed said Saskatchewan had shipped slightly more than 1,000,000 pounds to the market overseas. That business, he declared, was a net loss, the loss being heavier in the earlier shipments than the later ones, the result of better prices obtaining in England.

Model Of Tower Bridge

London's Famous Structure Reproduced By Farmer With Crude Tools

A model of London's famous tower-bridge, eight feet long, two feet high and 14 inches wide, has been made from wooden blocks by a Canadian on eagle variety by B. O. Bromberg, farmer of Lynden, Saskatchewan.

It took two winters of steady application to the job and three-and-one-half weeks to paint it.

The tools were a small plane, jack-knife, razor blades, fret saw, scrap glass and sandpaper. Gopher tails were used for paint brushes.

Although he has never seen the structure he set to work and built it for his son. He has not seen the bridge, as it stands in London, either.

A Strange Plant

Bursts Into Life After Sleeping For Ten Years

Horticulturists were surprised and puzzled recently at the behavior of a South African "Cycadoid" plant, which suddenly burst into life at the Royal Botanical Gardens in London, England, after sleeping for 10 years.

The plant was found in the South African section of the Wembley exhibition in 1925. It was then a stock and was taken to the botanical gardens, where it slept until last March when suddenly leaves sprang from the trunk and within a week or two it was covered with beautiful foliage.

Dogs are the most affectionate of animals—the only animals that prefer the company of man to their own kind. Cats can't be trusted, a Scotchman said.

Caller: "Good morning, Mrs. Smith. I believe you sent for a new dress."

Mrs. Smith: "Yes, come in. We've lost the key of the tin of needles."

W. N. T. 20-1

Consumer Wants Good Honey

Demand Same High Standard As In Other Foods

In the case of a food product the producer owes to the consumer extreme care in preparation of that product for the market to see that it is wholesome, clean, attractively packed and equal to the standards under which it is advertised and labelled. The honey producer had things very much his own way until a few years ago because demand exceeded supply and honey sold quite readily without too much fussing around with it. Today, however, conditions are somewhat different. More honey is being produced, competition has become keener and the consumer public has become more discriminating in its choice. The consumer has been educated by good goods graded to definite and uniform standards and is demanding similar standards for honey and these demands cannot be ignored. The consumer is willing to pay for quality produce and as he has the final say as to what he shall buy, his wants must be considered. The producer who fails to recognize this fact might just as well change his profession first as last.—C. E. Goodrich, Dominion Apiarist.

"I don't ever tell you, dear, about when I broke my shoulder straps?"—The Humorist, London.

Mushy Was Disappointed

Valuable Toboggan Team Is Lost By Indian

Red Carlick, Swampy Cree Indian, of the Hudson Bay Railway country up near Settling Lake, is disappointed. He counted on having a knockout dog team this winter, but the animals all died.

Rod was on the hunt this spring when he came across a timber wolf and six pups. The pups were dandies. Three were black, and three were almost white. They were good, hefty animals, even as pups. Rod got them into camp, and penned them, figuring on training them from puppyhood, and so have a smart dog team.

He went away on a trip. The wolves did not take to the food supplied them. When he returned he found five dead. He picked up the sixth. It passed away in his arms.

Tenants Had To Use Ladders

Burglars Stole Staircase From Apartment House In France

Not even staircases are safe from the twentieth century Parisian burglar.

Tenants living on the third floor of a French apartment house got up to go to work one morning and found they couldn't go. There was no staircase. It had been removed in the night by burglars.

Telephone and windows had been left intact, however, and while some shouted across the street to their incensed neighbors others telephoned the sceptical police, who eventually called out the fire department. Third floor dwellers had to use ladders for the next two weeks while new stairs were being installed.

Alberta Editors To Meet

Alberta division of the Canadian Weekly Newspaper Association will hold its annual convention in Edmonton October 20 and 21. It is announced following an executive meeting here.

Aeroplane is delivering supplies to ice-bound lighthouses near Warnemunde, Germany.

Some strange kinds of caterpillars can live under water.

Makes Gift-Giving Easy

Indian Ruler Solved Difficulty Of His Poorer Subjects

If you wish to present a gift to the twenty-one-year-old Maharajah of Travancore, India, he will supply it for you. He recently declared this. According to Hindu traditions, when a young man goes to pay his respects to his ruler he must offer a gift of either silver or gold, and the gift must be according to his station in life. The personal fortunes of many of the princes have been built up on this principle.

The Maharajah of Travancore realized the injustice of this practice, and now, if you go to see him, you will find at the entrance gate a man in attendance who will give you a roll of silk or a few gold sovereigns which you present to the ruler. He accepts these, and his secretary takes them back to the guardian at the gate for the next ruler.

Unusual Salvage Method

Russian Steamer Cut In Two And Re-Welded In Harbor

Strange is the method of salvage used to rescue the Russian steamer, "Kharikov," which was wrecked on a fog shoal in the Black Sea during a fog. A gang of electric welders was sent to the shoal in the ice-breaker "Thor." They cut the hull of the "Kharikov" in two. After this the ice-breaker took the two parts off the shoal one at a time. The stern part of the vessel was taken into Sebastopol Harbor and the bow followed. In the docks the "Kharikov" will be welded together electrically.

Canada's Sugar Refineries

Sugar refining is a considerable industry in Canada. Eight refineries operate in the Dominion: One at Dartmouth, Nova Scotia; one at Saint John, New Brunswick; two at Montreal, one at Chatham, and one at Wallaseburg, Ontario; one at Raymond, Alberta, and one at Vancouver, British Columbia. The value of production from these eight refineries in 1922 was \$41,022,580.

Movie picture theatres in New Zealand are being refurbished under the government subsidy for building and repairs.

Keeping Standard Measurements Is One Of The Most Difficult Problems Confronting Scientists

Preventive Medicine

Mental Health Is Just As Important As Physical Health

Preventive medicine is as concerned with mental as physical health. Dr. A. Grant Fleming, of the Department of Public Health and Preventive Medicine, McGill University, told the annual convention of the Alberta Medical Association at Calgary.

"There are more beds in our mental hospitals than in our general hospitals," he said. "The number of people who live unhappy lives because they are not mentally happy is large."

Dr. Fleming declared progress in the field of preventive medicine awaits the development of the science of medicine. "If the medical profession is to take part it must be prepared to act as a group. In addition to local organization taking its part in public health, the profession must provincially and nationally define the field it would assume in the realm of preventive medicine."

Dr. Fleming referred to improvement of health of infants, to schools and industries recognizing the importance of health and establishing preventive medical departments. The private practitioner has had little part in this development, he said. Knowledge should be given to the family physician who should assume responsibility for smallpox vaccination and diphtheria immunization.

"Preventive medicine enters into this problem because it has sufficient knowledge to justify a program of prevention of mental disease and promotion of mental health. The physician must study the mental field," he declared.

Nutritive Value The Same

Frozen Meat As Good As Fresh Research Committee Reports

Frozen meat is as good as fresh meat, according to the research committee of the Royal Agricultural Society of England. The committee has reported having acquired of the department of scientific and industrial research regarding the relative merits of fresh meat as compared with tinned, chilled or frozen meat.

A reply had been received from the ministry of health stating that on the knowledge at present available there is no recognizable difference in nutritive value as between frozen or chilled and fresh meat of similar quality. Further, there was no evidence that modern methods of canning affected the nutritive value to any greater extent than ordinary cooking.

Decorated By King

While the royal train was speeding from Aberdeen to Balaclava, Scotland, recently, King George presented the M.V.O. to William Johnston, traffic superintendent of the North Scottish district, who was retiring after 59 years of railway service.

Traffic receipts of England's four railways last year totalled \$628,000,000.

Now we've turned the corner again we haven't found what's around it.

An Economic Garden

Includes Different Plants From All Parts Of World

An economic plant bed is being established at the Royal Botanical gardens in London.

It is composed of 35 different plants from all parts of the world which provide man with needs from Panama hats to bananas.

Plants selected for the bed included:

Black pepper, peanut, pineapple, ginger plant, coconuts, silk oak, vanilla, ramie, flax, sugar cane, calash tree, soyabean, Mexican coconuts tree, fig-glove, tobacco, stigmata grass p'ine, Malay canes nut, alligator pear, Mesquite apple, also, booby's jump, date palm, camphor tree, coffee plant, thatch palm, cotton plant, fan palm, and banana tree.

Egg Export Trade Better

Larger Section Of Country Is Interested This Year

Steadily increasing activity in the export trade furnished practically the only item of interest on the egg market during a recent week, state the market report of the Dominion Department of Agriculture.

Exports, notably Winnipeg, are already shipping regularly, while at a number of other sections of the country, shipments are beginning to move. It is a long time since interest in the egg export trade was spread over such a large section of the country as it is the case this year, the report added.

Nobles Difficult Aboard

A. H. Marshall, of Vancouver, B.C., a member of the Seattle Mountaineers Club, and John Neelson, instructor of languages at the University of Cincinnati, recently reached the summit of soaring Grizzly Peak near Red Lake, after a climb of 10,000 feet and a half of arduous climbing. Marshall and Neelson were the sixth and seventh persons ever to scale the peak.

There are about 285 navigable streams in the United States.

AN IMPORTANT UNCLE ENSEMBLE THAT FITS THE FIGURE

GIVES SLENDER APPEARANCE

Here's a pattern that includes parties to match your slip. Think of the time you have so often wasted trying to buy a slip and pants that match.

You can make this darling set in a single morning. It's simplicity itself. It's surprising how little it will cost you.

The slip, cut on princess lines—a few seams to be joined—finishes the ensemble with lace. The parties have a fitted yoke and circular trim of 10-inch material with 16 inches of narrow lace to match the lace on the slip.

It's very effective in pale pink crepe silk with sheer lace. The edges may also be finished with this kind of lace.

Style No. 846 is designed in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

Slip 16 requires 3 1/2 yards of 10-inch material with 16 inches of 2-inch lace and 2 yards of 1-inch lace.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap card carefully.

How To Order Patterns

Address: Winnipeg Newspaper Union, 210 McDermott Ave., Winnipeg.

Pattern No. Size

Name

Using his 25-foot submarine, "Explorer," Simon Lake, famous inventor of underwater craft, hopes to succeed in a forthcoming attempt to reach the wreck of the liner "Lusitania," in her ocean grave off the Irish Coast, where she was torpedoed in 1916. The diminutive submarine attained a depth of 300 feet in initial tests in Long Island Sound recently and can run under liner in only 200 feet of water. It is reasonable to conclude the Lake expedition an excellent chance of succeeding in the venture. The strong room of the liner is said to contain about \$4,000,000 in gold and silver, as well as a large quantity of precious stones and other jewelry.

THE OXFORD GROUP

Calgary members of the Oxford Group who visited Redcliff and Medicine Hat last weekend appear to have made quite an impression on all who lived there.

While the foundation upon which their faith and religion is based is nothing new in the Christian world, yet it places more emphasis on the apparently little things in life than has usually been the case in the life of the ordinary Christian.

Absolute honesty, absolute unselfishness, absolute purity and absolute love are the foundation stones upon which members of the Group are attempting to mold their lives and regulate their actions.

With these as finger-pots directing one's pathway through life none can go very far wrong. Yet while absolute perfection in this mundane sphere is only reached by One, there is no doubt that great peace of mind, happiness, consolation, comfort and satisfaction may be attained in the striving for that end.

No fault can be found with any person or group of persons who have such ideals as their motive in life.

The report from Edmonton to the effect that the McClelland father and son who were condemned to die for murder, had secured enough money to get the younger man a new trial, has aroused the anger of not a

few in this province. If lack of money can prevent a man getting the benefit of every possible doubt before sending him to the gallows then there is something wrong. There are reasons for believing, however, that this report gave the wrong impression. A leading K. C. in Calgary who has done considerable work for the Attorney-General's department has made the statement that on different occasions this department has provided the necessary money to carry an appeal to the highest court in the land.

If the wording of the Edmonton report has created a wrong impression those who have the authority to do so should correct it. If this fact is as stated in the report then the law should be changed.

GOVERNMENT OF THE DOMINION OF CANADA 1933 REFUNDING LOAN

The Dominion of Canada offers for public subscription

Two-year 3½% Bonds, due 15th October, 1935

Issue Price: 99.50 and accrued interest,
yielding 3.75% to maturity.

Six-year 4% Bonds, due 15th October, 1939

Issue Price: 99.00 and accrued interest,
yielding 4.18% to maturity.

Twelve-year 4% Bonds, due 15th October, 1945

Issue Price: 98.50 and accrued interest,
yielding 4.58% to maturity.

Principal payable without charge in lawful money of Canada, at the office of the Minister of Finance and Receiver General of Canada at Ottawa, or at the office of the Assistant Receiver General at Halifax, Saint John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary or Victoria.

Interest payable half-yearly, 15th April and 15th October, in lawful money of Canada, without charge, at any branch in Canada of any Chartered Bank.

Denominations

Two-year Bonds, \$1,000
Six-year Bonds, \$500 and \$1,000
Twelve-year Bonds, \$100, \$500 and \$1,000

Cash Subscriptions.

Cash subscriptions will be received only for the Six-year 4% Bonds and for the Twelve-year 4% Bonds. All cash subscriptions will be subject to allotment. Following the announcement of the plan of allotment, delivery of interim certificates against payment in full for the bonds allotted will be promptly effected.

Refunding Subscriptions

Holders of Victory Loan 5½% Bonds due 1st November, 1933, after detaching and retaining the coupon due 1st November next, may, for the period during which the subscription lists are open, tender their bonds in lieu of cash on subscriptions for a like par value of bonds to one or more maturities of the new issue and receive allotment in full with prompt delivery. The surrender value of the Victory 5½% Bonds will be as follows:

100% of their par value on subscriptions for the Two-year 3½% Bonds and the Six-year 4% Bonds.

100% of their par value on subscriptions for the Twelve-year 4% Bonds if effected on or before 15th October, and 100% of their par value after that date. No accrued interest on the new bonds will be charged on refunding subscriptions if effected on or before 15th October. After that date accrued interest from 15th October will be charged. Holders will receive in cash the difference between the surrender value of their Victory Bonds and the cost of the bonds of the new issue.

The amount of this Loan is limited to \$885,000,000.

The Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge on the Consolidated Revenue Fund of Canada.

The proceeds of this Loan will retire \$169,971,850 Dominion of Canada 3½% Bonds maturing 1st November, 1933, and \$10,000,000 short-term Treasury Bills. The balance will be used for the general purposes of the Government.

Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by Recognized Dealers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the Loan. Applications will not be valid on forms other than those printed by the King's Printer.

The subscription lists will open on 10th October, 1933, and will close on or before 24th October, 1933, with or without notice, at the discretion of the Minister of Finance.

OCCASIONAL WIFE
By EDNA ROBB WEBSTER
Author of "Jetties," "Lipstick Girl" etc.

SYNOPSIS
Camilla Hoyt, young and beautiful, falls in love with Peter Anson, first student in an art school. She is the adopted daughter of a wealthy family, and he is a poor, struggling sculptor. On their first date Peter spends most of his money to show Camilla a good time, and Camilla decides he must give her up because he cannot stand the financial pressure. At a chance meeting, however, paves the way for another date. This time Peter walks in the park. Camilla tells Peter that he is not rich; or, at least, will not inherit the Hoyt fortune. Peter, in turn confesses he is practically penniless. They fall into each other's arms. Together, in the park, Peter and Camilla try to arrive at some plan for the future. Mrs. Hoyt, Camilla's foster mother, suspects from Camilla's actions that a romance is brewing. She is anxious to see Camilla wed wealthy.

(Now Go On With The Story)

CHAPTER X.

It was not long after Camilla knew that "Pa" Lorenz was her father, that he had been killed in an accident at the foundry, thus leaving her fatherless. Her life almost as soon as he had entered it. The industrial insurance had saved the family's humble home and with three or four of the children working all the time and living at home, Mrs. Lorenz managed a thrifty existence.

She rather gloried in her newly acquired authority and independence, and partially assumed by young Henry, who had taken his father's place in the shop. He was a subterranean man, and most popular that his father had been. He carried none of his antagonism and resentment of inferiority. He was the readjusted young American. The Lorenzes lived in a section built up of factory laboring home owners, where women who had failed miserably in the open fields now used electric washers and vacuum cleaners, and found time to chat over back fences and drink delicious bits of gossip on the street to and from the market.

Their faces grew brighter and their accents less pronounced, as their figures grew more shapely and their clothes less shabby. Patches of lawn and clipped hedges added dignity to the rows of frame houses that had been built on blue-print white flowers and vegetables flourished in the back yards for beauty and economy. Pungent, spicy odors were wafted from open doors and windows to the four winds, and children laughed and cried and played ball in the streets.

Such was the environment that Camilla learned was hers by right of birth; but however hard she might try, she knew that she never could adopt it for her own again. There were times when she wished devoutly that she had not been born at that wilderness as a rare flower, to be transplanted in the sheltered atmosphere of the comfortable home where her studies at National had dispelled that notion, and her meeting with Peter had totally demoralized it. This was why her sudden change of attitude aroused Mrs. Hoyt's curiosity as to the cause.

No opportunity to follow up her suspicions escaped her vigilant eye. She went into Camilla's rooms often for dinner, especially if Camilla were dressing to go out anywhere.

CORN'S & WARTS
Removes them. Dab on with brush. After a few days they fall off. After a few days they fall off.

WINDMILLS
"KING OF PAIN"
NIMEN

W. N. U. 1011

Such circumstances inspire women's confidences. She displayed a growing interest in seeing that Camilla looked just right.

"You seem to be happier of late," she suggested pleasantly, one evening.

"An 17" asked Camilla. "Yes, perhaps a bit. School will be out soon."

"Are you so tired of studying?" bopertly.

"Oh, no. Just anxious for September and the beginning of real work," she replied easily, letting a cloud of rose-dusted suede lace fall over her head and shimmer into folds around her mesh-clad ankles.

For one thing, Camilla rejoiced in spite of her resentment over her false position as Camilla Hoyt—that her wealth provided her with beautiful clothes just now when she wished to appear her loveliest in Peter's eyes. Of course, she would love her just the same if she wore rags—or a shawl—she told herself. Every woman believes in that supposition, but she never dares to put it to the test.

A misplaced lock of hair, a shifty nose, an unbecoming gown—she lives in a constant dread of her lover's discovery of these things to whatever beauty he has.

"May I ask where you are going this evening?" Mrs. Hoyt continued.

"The art school classes are having dance in the auditorium."

"Oh! Is someone taking you?"

"One of the students," Camilla replied easily, but her heart beat furiously at the mere thought of Peter.

"Do I know him?" Family introduction and long acquaintances were of paramount importance in Mrs. Hoyt's social world.

"I don't think so. His name is Anson's son."

"Quer name, it sounds—Swedish."

"If I tell I suppose it. All I know is that he is one of the honor students."

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had been ruined by picking holes and stains out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sun-spotted."

"It was heartless until the happy thought struck me to dye them. I just dyed them a deeper green, and I used Diamond Dye they look gorgeous and new. I have never seen matter gives to use that Diamond Dye. They give the most beautiful color of dyeing—and never take the life out of cloth—as other dyes do."

MRS. J.F.T., Montreal.

of character, history, ancestry, social status and financial rating.

Peter was modest. "That may be, but Mrs. Hoyt only tells nice things about everyone."

"Oh, have you known her for long?"

"Only since I went into 'Professor Drake's class as a critic."

"Yes, I had taken his work two years ago. I wanted to do it if I had improved any," his smile was charming, and included Camilla.

She moved toward the hall anxious to escape the rest of the list of questions. "We are late, now, Mrs. Anson."

Mrs. Hoyt followed them to the door. "Your car—where is it?" She exclaimed with alarm, as if she thought it must have been stolen when she saw none waiting outside.

"We're walking. It's only across the park," said Camilla, and Mrs. Anson lives near. I insisted that he shouldn't bring a car."

"That's ridiculous," Camilla said, she turned to Peter. "You must not humiliate your queer notions, Mrs. Peter."

He defended her, looking a courteous good.

Making Liners Cooler

Canada's Finest White Paint Reduces Temperature Many Degrees.

The "Maureta" Line has announced that the "Maureta" had been the most received as an all-white outfitting liner that they have decided to paint the liner "Francois" white before the beginning of her world cruise next January.

H. P. Borer, general passenger manager of the line, said that engineers on the "Maureta" had taken a series of scientific observations taken on the "Maureta" during cruises to the West Indian. They took similar readings last year on identical cruises and have reported that the liner is from seven to nine degrees cooler in her white dress.

"I didn't believe it at first," Mr. Borer said, "and thought it as just a fluke, but they produced the figures and scientific data to show that a white ship must be cooler than black one."

The "Maureta," still one of the swiftest liners afloat despite her age of more than a quarter of a century, has proved popular in the cruise trade. On September 27 the ship will be sent to England for a month for reconditioning. In November the liner will be back again for a series of cruises to last until April.

THE RHYMING OPTIMIST

By Aline Michaelis

THE FADED TAPESTRY

Her life is like a faded tapestry with the colors worn and faded with the years;

Of every one-time vivid flower and leaf, the shadow only, dim and vague, appears.

Day after day has shed its rays of cheer, and the carresses of those golden years.

A part of sapphire, rose and jade have gone; the picture now as pale as moonlight gleams.

A faded tapestry, which takes from an added beauty as the seasons go; so softened, rendered mystic and subtle.

With loveliness no crude, new thing like show. We see her life grown fairer at the end.

Which glamour years, and years alone, can lend.

Some Cures For Insomnia

Plenty Of Recipes Given From Which To Choose

Sleepless nights? Try these favorite recipes from all over the world for winning the favors of Morpheus.

"Count the number of people you know."

"Put your ears with cotton."

Recite Keats' "Ode to Bion." Read the Bible.

Try to recall a previous dream and "think" yourself back into it.

Double glasses—twice one, twice two, twice three, and so on. If sleep does not come, you are said to find easy to reach 10,777,776 when the combinations of seven plus the brain.

Place a pad of lint or rag, wrung out in cold water, on the pulse of the left wrist, then bind it with a handkerchief.

Munch a hard crust. And sleep with the head to the north, "in line with the earth's magnetic currents."

- Has Slim Chance Now

Hot Cars Speeded Up Pedestrians

WHEN HAS HEARD THAT THE pedestrian has a hard enough time as it is; he must hop quickly with a car coming dead on him at 40 miles per hour. If the speed of the car were stepped up to 125 miles per hour he would have no chance whatsoever.

If he stood still he would be struck so hard that identification would be difficult; if he jumped with sufficient agility to escape he would have to strain his back and injure his arches for life. The extent of the jump which he makes today would be a futile gesture. The leap which would deliver him from a car speeding at 40 miles per hour would be of no use whatever when pitted against a safely measured against one speeding 125 miles an hour.

Won His Bet

The people who work on the tobacco farms in Ontario got a surprise by seeing a young man drive five pounds of extracted honey in 4 minutes. He was the best he had seen. If he drank the five pounds in 5 minutes, the owner was to give him 25 pounds. If the young gentleman could not drink the honey in the time set he was to pay for the five pounds.

Longest Lived Trees

Older than the pyramid or splint of Egypt older than the first city built by man. Many of the "Big Trees" of California may have been seedling when Adam walked the earth. English Oaks are also noted for their long life—some are now standing in the same place long enough to spin the wheel which the master King of the Queen ruled in the year 1066.

LONGEST LIVED RADIO BATTERIES

It's long life that saves money on battery upkeep. You get longer life from Eveready Batteries because they are crammed full of power-producing material. No waste space in the flat layers. Every inch works for you. If buying a new set, ask about the new Air-Cell radios which are specially designed for home use without electricity. No recharging necessary with Eveready Air-Cell "A" Batteries.

Interesting Local Items

Mr. and Mrs. H. J. Cox and Miss Isabel Cox spent last weekend in Calgary.

Mr. and Mrs. C. T. Hall motored to Calgary to spend the Thanksgiving holiday.

The first passenger train arrived in Calgary on Sept. 28th, 1883, just 50 years ago last Thursday.

Mrs. Keatley Johnson left last night for England to visit her mother whom she has not seen for 22 years.

Quite a number from Redcliff and Medicine Hat spent the week end at Elkwater, to enjoy the autumn colors.

Mr. H. Champ returned from the Medicine Hat hospital on Saturday. He is now steadily improving after his recent operation.

The annual slaughter of buffalo at Wainwright Park will shortly be carried out, some 2,000 head to be killed. This is done as a measure of reducing

CARD OF THANKS

Mr. and Mrs. Norman Willis wish to thank their friends for their many kindnesses during Mrs. Willis' recent illness in the Medicine Hat hospital.

A REMINDER!

A few years ago thousands of Alberta farmers petitioned and worked for the building of Alberta Pool Elevators. As a result the Pool system covers the province in a close network.

The same reasons which inspired grain growers to the service and protection of this co-operative system of elevators suggest that patronage should continue to be extended to them on a generous scale.

ALBERTA POOL ELEVATORS

the rapidly increasing herd, which has numbered 7,000 this summer.
